Thanks Pam

As a reply to Dr Keegan-Henry, we can say that we have kept an open mind regarding whether an improved, future BH would be on the present site or started all over at a different site. We've heard ideas and submissions from both points of view. Ultimately, we are an idea and information gathering committee, not a decision making body.

The FHA Master Plan Committee has also kept an open mind on the issue of site. As I understand it, the present feeling is that there is too much (several hundred million dollars worth) of valuable/useable infrastructure at that the present site. It doesn't make sense to walk away from all of that unless proven otherwise as the planning goes along. Hope that helps

David

Hello

I thought I'd give everyone a quick update and what I perceive the next three weeks to look like. As always please feel free to comment or correct me if you don't think I'm going in the correct direction.

Good news. I heard from Vern Milani (committee member & Foundation Board Member) and some members of the Foundation would like to get together with some committee members to participate and learn more about our project. Two of these people are the Executive Director and Site Director of BH. That was a very positive move when the Foundation chose to terminate Cheryl Boseley. Vern and I have decided to have this meeting at his office and the following committee members in attendance are Vern, Ross, Dave, Thomas, and I. Thomas emailed me asking to attend and I had no problem with that at all as the goal is to get him to engage as much as possible. As always Harry you are invited as you are our leader!!!

When I spoke with Margaret and Lindsay last week I'd suggested I'd ask for an extension, but on further thought we can just have this mtg in private and submit the notes to Jennifer. As there are so many people watching us on facebook and twitter I don't want any questions asked why are we asking for an extension.
